WIAT Woodland Management Standard

Woods should be **safe and welcoming to all**. The **standard** can be broken down into a number of criteria. FCS may choose to visit woods, however, an applicant is responsible for providing evidence that these criteria are being met.

| Criteria | Standard | Example of suitable Evidence |
|---------------------------|---|---|
| Welcoming | | |
| Community perception | Overall impression should be positive and inviting. | Feedback reports / surveys of local community organisations / community council and/or users |
| Healthy, safe and secure | Facilities must be safe to use. Personal security issues actively addressed. Management of anti-social behaviour. | Facility inspection and monitoring strategy Incident report |
| Clean and well maintained | Active management of litter and fly-tipping issues. | Copy of litter / fly tipping approach e.g. inspection regime Incident report |
| Active management | | <u>, </u> |
| Forest Plan | Developed in accordance with the UK Forestry Standard and its associated guidelines. Current FP actively implemented. | Approved Forest Plan Agreed scheduled of works and annual report of activity |
| Management operations | Delivered in accordance with the UK Forestry Standard and its associated guidelines. | Agreed scheduled of works and annual report of activity |
| Supporting access | 1 | 1 |
| Accessible woodland | Woodland access components must include: Clearly defined and accessible entrance(s). Useable path(s) / track(s) / | Site interpretation plan Inspection and maintenance reports |

| Criteria | Standard | Example of suitable Evidence |
|------------------------|---|---|
| | amenity spaces. | |
| Community Engagement | | |
| Involving local people | Evidence of periodic community involvement in management and access decisions (over and above management plan consultation process). Facilitation of periodic events/activities involving local community. | Summary reports and feedback / surveys of local community |

Note: if the woodland has an approved Forest Plan and evidence is provided that it is being managed according to a recognised Quality Standard (e.g. Green Flag) then FCS will not require the above evidence.
