Date published: 30 March, 2015

Date superseded: 21 December, 2015

Aim

The aim of this item is to benefit moorland, heathland and grassland habitats by reducing or eradicating bracken cover and preventing habitat loss.

On some areas of land, for example very steep slopes, chemical or mechanical control may not always be appropriate. In these areas manual control may be more appropriate.

Controlling bracken can also help to restore a more open structure to the existing vegetation, which will encourage native plants to thrive and provide better habitat for wildlife.

Eligibility

Moorland, heathland or unimproved grassland with bracken is eligible.

You must combine this item with one of the following management options:

- [Moorland Management](#)
- [Species-rich Grassland Management](#)
- [Habitat Mosaic Management](#)
- [Heath Management \(Coastal, Serpentine, Lowland and Special Interest\)](#)

Application requirements

You must prepare a bracken management plan, which must include a 1:2,500 or 1:10,000 map showing the extent of the bracken and the areas to be treated.

[Bracken Control Plan \(PDF, Size: 131.5 kB\)](#)

doc_external_url: <https://www.ruralpayments.org/media/resources/Bracken-Control-Plan-v1.pdf> Plan template

Requirements

- you must treat the area as detailed in your bracken management plan by cutting to sever the bracken fronds
- you must maintain a diary which includes the dates treatment was undertaken

Claim requirements

You must submit your claim between 1 September and 30 September 30.

Payment

You can claim £150.00 per hectare of treated land.

Pillar One ineligible land can be treated, but cannot be claimed for payment.

Inspections

The inspectors will check:

- the location and extent of the work
- you have treated the area as detailed in your bracken management plan
- you have maintained a diary which includes the dates treatment was undertaken
