# <u>Rural Sustainable Drainage Systems –</u> <u>Wetland</u>

This is an old version of the page

Date published: 11 March, 2016

Date superseded: 18 January, 2017

To see recent changes to this guidance, check the bottom of this page.

#### <u>Aim</u>

The aim of this item is to improve water quality by creating a wetland to intercept and treat run-off that currently discharges direct to a watercourse or freshwater drain. Wetlands can improve water quality through natural processes, including filtration, retention, biological breakdown and plant uptake.

### **Eligibility**

Any land is eligible, provided that it meets all of the requirements set out below.

## Spatial targeting

Map of target area – Rural Sustainable Drainage Systems – Wetland (PDF, Size: 900.5 kB) doc\_external\_url: https://www.ruralpayments.org/media/resources/Updated-targeting-map---Rural-Sustainable-Drainage-Systems-\_--Wetland-16-12-2015.pdf This item is available within the target area shown on this map.

You can check if this item is available on your holding here.

#### Application requirements

You must prepare a plan which must include a map of the relevant fields / steading identifying the location of the proposed rural sustainable drainage system feature.

You must also produce a diffuse pollution steading assessment.

#### **Requirements**

Only run-off which does not fall within the definition of slurry may be conveyed to a wetland, unless the run-off is of a type permitted by The Control of Pollution (Silage, Slurry and Agricultural Fuel Oil) (Scotland) Regulations 2003 as amended to be conveyed to a constructed farm wetland, and the wetland has been designed and constructed in line with the Constructed Farm Wetland Design Manual for Scotland and Northern Ireland, 2008 as evidenced by a sign-off from the Scottish Environment Protection Agency.

Additionally:

- run-off from pesticide handling or washdown areas must not be conveyed to a wetland
- fencing must be provided to protect people and livestock
- existing wetlands must not be used
- you must obtain planning permission, or have confirmation that planning permission is not required for your proposed wetland
- where a proprietary lining is used, a receipt for the liner will be required

# **Payment**

You can claim:

- £9 per square metre for wetland with a proprietary lining
- £5 per square metre for wetland with a soil lining

## **Inspections**

The inspectors will check:

- the location and extent of the wetland
- that there is a receipt for a proprietary liner
- only run-off which does not fall within the definition of slurry is conveyed to a wetland
- run-off from pesticide handling or wash-down areas is not conveyed to a wetland
- fencing has been provided to protect people and livestock
- existing wetlands are not used

## Additional guidance

Supporting guidance is available for this option.
