Important update

Please note that the list of options targeted on your land in 2015 may differ slightly from those available to you in 2016. This is because the spatial targeting maps have changed for some options.

A wide range of management options and capital items are available under the Agri-Environment Climate Scheme.

There are rules and management requirements for each and they must be followed over the course of your contract.

Also, supporting information is available which provides recommendations and best practice in relation to the why, where, how and what for each option and capital item. Your application could gain additional points if you follow these.
