Updates to last version

- pre-application form information in '2non-Annex I' added

Introduction

The maximum rate of grant your business will be eligible for is determined by the size of the business: large, medium, small or micro **and** by the activity or products your business produces.

Capital grants – investments in physical assets

Business size	¹Annex I inputs to ¹Annex I outputs	¹Annex I inputs to ²Non-annex I outputs
Large enterprise	40%	Ineligible
Medium enterprise	40%	10%
Small enterprise	40%	20%
Micro enterprise	40%	20%

¹ Annex I – products are agricultural products as defined in Annex I of the Treaty of the Functioning of the European Union. More detailed information can be found in:

[Eligibility](#)

[Technical guidance](#)

[List of eligible agricultural products](#)

² Non-Annex I – if your output is not an Annex I product, then medium, small and micro companies are eligible but the grant rate is lower. If a negligible element of your outputs are non-Annex I, overall the outputs may be considered to be Annex I for grant funding purposes.

In these circumstances you may wish to complete the pre-application form in advance of the full application for clarification as the maximum rate of grant you could be eligible for will vary.

Non-capital grants (including co-operation)

Further information regarding non-capital grants and co-operation projects will be published later in 2015.
